Since this is a continuing investigation, the investigative period of this report overlaps the investigative period of referenced report. 

Investigation is continuing to identify the copiers used to reproduce stolen documents or other documents released by the "Citizens' Commission to Investigate the FBI." As of 6/10/71, the FBI Laboratory has examined specimens obtained from 4,789 copiers. None of these specimens have been associated with the characteristics noted on questioned copies in this case. 

[redacted]

The following is set forth to give the Bureau and receiving offices an overview of [redacted] participation in draft board break-ins, as well as to include his involvement in MEDBURG: ✓

Except where the information is attributed to a second source, the information below was obtained from [redacted]. The information furnished by this source is for your assistance in evaluation of this case, and none of the information furnished by this source is to be disseminated without the approval of the Bureau and the Philadelphia Office. ✓

COVER PAGE

PH 52-7165

Laboratory report dated 6/1/71, #D-710527106 LC, states with respect to item #2, submitted by the Newark Division on 5/27/71, a copy of [redacted] bearing handwriting and handprinting of [redacted] that it was determined the writer of item #2 did not prepare the questioned material in the MEDBURG, EASTCON and GARDBURG-ATTEMPT cases. u

b6  
b7C

Laboratory report dated 6/1/71, numbers D-710524152 LC and D-710528042 LC; states with respect to item #3, a two-page Special Report for Class 1-0 Registrants form and a five-page Classification Questionnaire form bearing handwriting and handprinting of [redacted] that "it was determined that the handprinting on item #3 was not prepared by the writer of the questioned material in the MEDBURG, EASTCON and GARDBURG-ATTEMPT cases." [redacted]

b6  
b7C

Laboratory report dated 6/2/71, with respect to item #4, received from the Minneapolis Office on 6/1/71, a "Selective Service System registration card bearing known signature of [redacted] states that "[redacted] signature, Item #4, is not sufficiently comparable with the questioned material on specimens submitted in the MEDBURG, EASTCON and GARDBURG-ATTEMPT cases for meaningful comparisons to be made. Therefore, it was not possible to determine whether he did or did not prepare the questioned specimens." u

b6  
b7C

The Boston Office on 5/18/71 submitted to the Laboratory an apparent [redacted] which was obtained from [redacted] on the same date. Laboratory report dated 6/1/71, #D-710520070 LC, discloses that the above specimen, K4932, was examined with the following results: [redacted] K4932, were not prepared with the questioned typewriters used in the preparation of specimens previously submitted in the MEDBURG, EASTCON, and GARDBURG-ATTEMPT cases." u

b7D

b6  
b7C  
b7D

PH 52-7165

On 5/6/71 the Boston Office submitted to the Laboratory various documents obtained on the same date from [redacted] Description of these documents and results of Laboratory examination, as set forth in Laboratory report dated 5/17/71, are set forth below: u

"K4744	[redacted]
"K4745	[redacted]
"K4746	[redacted]
"K4747	[redacted]
"K4748	[redacted]
"K4749	[redacted]
"K4750	[redacted]
"K4751	[redacted]

Results: "It was determined that the typewriters used in preparing K4747, K4748 and K4751 were not used in preparing the questioned typewriting appearing on evidence in this case.

"Nothing significant was noted in the handprinting on K4744, K4746 and K4750 when compared with the unidentified questioned handprinting appearing on evidence in this case or on evidence in the EASTCON case; however, a definite conclusion was not reached as a result of these comparisons because of

the lack of adequate comparable material. u

"The handwriting appearing on K4745 and K4749 is not comparable with the questioned handprinting appearing on evidence in this case or the EASTCON case." u

The Boston Office on 5/22/71 advised that information had been received from a confidential source that

Laboratory reported dated 6/1/71 discloses that the above specimens, K4992, were examined and it was determined that "the selenium drum, K4992, does not show the characteristic markings which appear on questioned copies of Xerox Model 2400, previously submitted in this case." u

Laboratory report dated 5/28/71 discloses that Cryptanalysis Section examination of documents (Q226 through Q233) by a confidential source and submitted to the Laboratory on 5/3/71 by the Boston Office revealed that the "language characteristics of specimens Q226 through Q233 were not found to be significantly similar to language characteristics contained in MEDBURG specimens Qc33, Qc93, Qc95, Qc101, Qc147, composed by the Citizens Commission to Investigate the FBI, and GARDBURG-ATTEMPT specimen Q50. u

Examination by the Cryptanalysis Section of documents obtained on 5/7/71 designated as K4754 through K4764 and further described in Laboratory report dated 5/12/71 disclosed

~~CONFIDENTIAL~~

PH 52-7165

that the "language characteristics of specimens K4754 through K4764 were not found to be significantly similar to language characteristics contained in MEDBURG specimens Qc33, Qc93, Qc95, Qc101, Qc147, composed by the Citizens Commission to Investigate the FBI, and GARDBURG-ATTEMPT specimen Q50." U

Various Laboratory reports relating to comparison of sample staples obtained from various staplers disclosed that the sample staples were compared with questioned staples used to staple copies of stolen documents which have surfaced in this case. These reports disclose that it has not been possible to identify any of the sample staple specimens as having been stapled with the same stapler that was used to staple the questioned documents. Details as to the source of the sample staples and of the Laboratory reports are not being set out in the details of this report since the examination was negative and the information would be of no evidentiary or further investigative value. DETAILS:

I. CRIME SCENE

A. INVESTIGATION AS TO SURFACED DOCUMENTS

As disclosed in Section A of this report, investigation has failed to disclose the identity of person mailing surfaced documents from Detroit, Mich., on May 19, 1971, to [REDACTED] Philadelphia, Pa. 5

b6  
b7C

PH 52-7165

Concerning surfaced documents mailed to [redacted]  
[redacted] Philadelphia, Pa., in an  
envelope postmarked May 13, 1971, at Detroit, Mich., and  
stamped with a Pitney Bowes Post Office Meter, stamp #121057,  
as previously reported. the Detroit Office on May 19, 1971,  
advised that [redacted] U. S. Post Office,  
North End Branch, 60 East Milwaukee Street, Detroit, Mich.,  
on May 18, 1971, stated that Pitney Bowes Postal Meter #121057  
had been in continuous use at that station as a counter machine  
since shortly after July 29, 1969. [redacted] said tapes from  
this machine are applied to mail coming to the Post Office  
over the counter. U. S. Postal Clerks [redacted]  
[redacted] who were operating this machine on May  
13, 1971, were not able to furnish any information regarding  
the person mailing the envelope addressed to [redacted] on  
May 13, 1971. 4

B. FBI Laboratory and Latent Fingerprint  
Section - Examination of Evidence

The following is a summary of pertinent results of FBI Laboratory and Latent Fingerprint Section examinations as set out in this report: u

No latent prints of value developed on envelope or copies of documents mailed to [redacted] Philadelphia, Pa., from Detroit, Mich., on May 13, 1971. Hand printing on the envelope sent to [redacted] not identified with questioned hand printing in this case or with known hand printing of suspects. u

Twenty-one latent fingerprints developed on specimens of surfaced documents mailed from Wilmington, Del., on April 22, 1971, to [redacted] Washington, D. C. None of these latents identified with fingerprints of suspects. u

Examination of envelopes and copies of stolen documents mailed from RESIST, Cambridge, Mass., to [redacted] Boston, Mass., and of copies of stolen and one original document mailed from RESIST, Cambridge, Mass., to [redacted] Boston, Mass., disclosed that typewriter used to prepare address on three of the envelopes addressed to [redacted] determined to be similar to IBM Selectric script style type used on previously submitted documents. Typewriter impressions on fourth envelope addressed to [redacted] determined to be Ransmayer style type, also used on previously submitted specimens. u

Latent Fingerprint Section report discloses that two latent fingerprints and one latent palm print developed on envelope addressed to [redacted] and seven latent fingerprints developed on documents mailed to [redacted] Two of the latent fingerprints identified as fingerprint of [redacted] FBI No. [redacted] u

The Laboratory concluded that typewriter used to

prepare letter accompanying documents mailed to [redacted]  
not used to prepare release of "Citizens' Commission to  
Investigate the FBI." u

One latent fingerprint and one latent palm print  
developed on envelope addressed to [redacted] and one  
latent fingerprint on letter accompanying documents sent to  
[redacted] These prints not identical to available palm  
prints and fingerprints of suspects. u

Latent fingerprint reported in instant case not  
identical to prints of [redacted]  
[redacted] u

Handwriting and hand printing of various suspects  
compared with questioned hand printing, but no identification  
effected. Laboratory concluded that questioned hand printing  
in this case not prepared by [redacted] Pa.

Specimens obtained from various typewriters, but  
none of these identified as having been prepared by typewriter  
used to prepare questioned specimens. u

Comparison of documents submitted to the Laboratory  
in various break-in cases compared with questioned documents  
in this case, but no identification effected. u

Examination by Cryptanalysis Section of various  
submitted specimens and with specimens in other break-in cases  
conducted. Language characteristics of these specimens not  
found to be significantly similar to language characteristics  
contained in release issued by "Citizens' Commission to Investi-  
gate the FBI." u

1. Surfaced Document Examination

Concerning the items mailed from Detroit, Mich., to [redacted] Philadelphia, Pa., as previously reported, Latent Fingerprint Section report dated May 26, 1971, Latent Case #A33896, discloses that no latent prints of value were developed on the envelope and nine photocopies, Q371 through Q376, mailed to [redacted] u

Results of Laboratory examination of the above specimens is set forth below: u

"Q371 Manila envelope bearing the handprinted address [redacted] Philadelphia, Pa.' u

"Q372 Copy of 'Files Seized by Citizens Commission Exposes [redacted] u

"Q373 Copy of press release of The Citizens Commission to Investigate the FBI.

"Q374 Copy of Memorandum of SA THOMAS F. LEWIS dated 5/27/71.

"Q375 Copy of letter page 15 on 'Potential For Racial Violence'.

"Q376 Copies of five pages numbered 59 through 63 on 'Possible Racial Violence'.

Results: "The envelope, Q371, contains a Pitney Bowes Post Office Meter #121057 stamp.

"Due to unexplained handprinting variations, it could not definitely be determined whether the handprinting on Q371 was or was not prepared by [redacted] K24, in the EASTCON case. The handprinting on Q371 was not identified with the writers of the questioned handprinting and the remaining known handprinting previously submitted in the MEDBURG, EASTCON and GARBURG-ATTEMPT cases. u

PH 52-7165

b6  
b7c

"The impressions on the copy, Q372, are printers type setup. The typewriter impressions at the top of Q373 are IBM Selectric script style of type. This same style of type was used to prepare Q168, Q169 and other copies previously submitted in this case. However, due to the lack of sufficient identifying characteristics, it was not possible to determine whether one typewriter was used in the preparation of these specimens. u

"The submitted copies appear to have been reproduced on an SCM copier. No watermarks or indented writing of value were noted on the submitted evidence." u

Latent Fingerprint Section report dated May 7, 1971, Latent Case #A-33896, relating to specimens Q168 through Q184, surfaced documents mailed from Wilmington, Del. on April 22, 1971, to [redacted]

[redacted] as previously reported, discloses the following: u

"Twenty-one latent fingerprints developed on specimens, designated Q169, Q171 through Q176, Q178, Q179, Q180, Q182, and Q183. No latent prints of value developed on remaining specimens. u

"Latent fingerprints not identical fingerprints of suspects named to date. u

"Searches were conducted in Weatherman section of single fingerprint file, but no identification was effected." u

On May 6, 1971, the Boston Office submitted to the Laboratory five packets of xerox copies of copies of documents taken from the Media Resident Agency. These five packets, Q273 through Q277, mailed from Resist, 763 Massachusetts Avenue, Cambridge, Mass., to [redacted] a

PH 52-7165

b6  
b7C  
b7D

[redacted] were obtained by SA FRANCIS T. LEONARD from [redacted] of the law firm of [redacted] Boston, which firm represents [redacted] u

On May 7, 1971, [redacted] of the above law firm turned over to SA JAMES E. LINDSAY an envelope, Q300, along with specimens Q301 through Q304, all of which are fully described in Laboratory report dated May 17, 1971. u

The Boston Office, also on May 6, 1971, submitted to the Laboratory four envelopes (Q269 through Q272) addressed to [redacted] Boston, Mass. These items were obtained by SA [redacted] on May 5, 1971, from [redacted] an attorney for [redacted] u

[redacted] on May 6, 1971, advised SA FRANCIS T. LEONARD concerning an article by [redacted] which appeared in [redacted] on April 27, 1971, which article was based on an original document taken in instant theft; that he assumed that the original document was received in one of these envelopes postmarked April 22, 1971, at Wilmington, Del. (Q271). He said he based this assumption on a statement of [redacted] to him that he received this original document on April 26, 1971, and wrote the article on April 27, 1971. u

Laboratory and Latent Fingerprint Section reports as to examination of the above items are set forth below. u

BACKGROUND AND PHYSICAL DESCRIPTION OF  
JOHN PETER GRADY

Physical Description

Date of Birth	August 15, 1925 <sup>46</sup>
Place of Birth	Bronx, New York
Race	White
Ethnic Background	Both parents born in Ireland
Height	5'8" tall
Weight	185 pounds
Build	Heavy, large stomach
Complexion	Ruddy
Eyes	Brown
Hair	Dark brown or black, wavy, flecks of grey, long sideburns
Physical Condition	Draws veteran's disability of \$227 annually for sinus condition and left shoulder injury. Is alleged to be heavy drinker (as much as 1/5 daily). Allegedly played football and baseball in high school and college.
Personality Characteristics	Speaks with Irish accent, smiles easily, is "tail" conscious.

General Background

b6  
b7C

Relatives

Mother: ANNA GRADY, Queens, N.Y.  
Father: Deceased

Education

Attended elementary and graduated from high school in Bronx, N.Y. Studied Civil Engineering one year at Manhattan College, New York City. Entered Navy and on discharge, returned to Manhattan and graduated in 1949 with B.A. Degree in Sociology.

Military Service

U.S. Navy from 11/4/43 to 5/29/46. Honorable discharge as Aviation Electronics Mate, (NSN 8162313). No overseas duty.

Registered for Selective Service at Bronx, N.Y., in 1948 (SSN 50-20-25-547).

Veteran's Administration No. 6 11 4 19504

Occupation

Present:  
Resistance Book Distributors  
611 East 219th Street  
New York City, N.Y.

Presently setting up "radical" book stores near various colleges.

1965 - Present:  
Cornelius J. Drew Foundation  
211 - 1/2 West 141st Street  
New York City, N.Y.

GRADY is allegedly Executive Director and has control of funds. DREW is former Catholic Priest.

Financial matters

Social Security No. - 109-18-7270  
Gulf Credit Card No. - 442-170-748-2  
Bank Americard No. - 250630004639

Credit Bureau of Greater New York  
gave "Satisfactory" rating as of  
April, 1971.

American Oil Company Credit Card  
cancelled in 1970 as "bad account."

Residence

855 East 233rd Street  
Apartment 10 B  
Bronx, N.Y.

[REDACTED] GRADY appears to be  
absent and travelling almost con-  
stantly.

Arrests

None known

Automobiles:

1965 red Chevrolet Station Wagon, VIN 133355BI44216,  
which as of 2/7/70, bore New Jersey License Plate POM-808, regis-  
tered to GRADY at 18 Massa Lane, Edgewater, N.J. This vehicle  
believed to be presently at an unknown location in Philadelphia  
and GRADY is attempting to re-register it in Philadelphia. u

[REDACTED] drives a 1961 white Mercury Comet  
bearing New Jersey License Plate [REDACTED] insured in her name. u

GRADY has been known to rent cars at various times. u

As of 6/3/71, he was known to be using a four-door 1968  
Chevrolet Impala, leamon-cream or gold in color, bearing New Jersey  
license [REDACTED] registered to [REDACTED] u

Driver's License

New Jersey State, G714240777-08250,  
(Driving privileges suspended as of  
10/22/69.)

New York State 7075569. (Expiration  
date, November 1970.)

DETAILS:

I. CRIME SCENE

A. INVESTIGATION AS TO SURFACED DOCUMENTS

As disclosed in Section A of this report, investigation has failed to disclose the identity of person mailing surfaced documents from Detroit, Mich., on May 19, 1971, to [REDACTED] Philadelphia, Pa.

b6  
b7C

PH 52-7165

b6  
b7C

Concerning surfaced documents mailed to [redacted] Philadelphia, Pa., in an envelope postmarked May 13, 1971, at Detroit, Mich., and stamped with a Pitney Bowes Post Office Meter, stamp #121057, as previously reported, the Detroit Office on May 19, 1971, advised that [redacted] U. S. Post Office, North End Branch, 60 East Milwaukee Street, Detroit, Mich., on May 18, 1971, stated that Pitney Bowes Postal Meter #121057 had been in continuous use at that station as a counter machine since shortly after July 29, 1969. [redacted] said tapes from this machine are applied to mail coming to the Post Office over the counter. U. S. Postal Clerks [redacted] [redacted] who were operating this machine on May 13, 1971, were not able to furnish any information regarding the person mailing the envelope addressed to [redacted] on May 13, 1971.

B. FBI Laboratory and Latent Fingerprint  
Section - Examination of Evidence

The following is a summary of pertinent results of FBI Laboratory and Latent Fingerprint Section examinations as set out in this report:

No latent prints of value developed on envelope or copies of documents mailed to [redacted] Philadelphia, Pa., from Detroit, Mich., on May 13, 1971. Hand printing on the envelope sent to [redacted] not identified with questioned hand printing in this case or with known hand printing of suspects.

Twenty-one latent fingerprints developed on specimens of surfaced documents mailed from Wilmington, Del., on April 22, 1971, to [redacted] Washington, D. C. None of these latents identified with fingerprints of suspects.

Examination of envelopes and copies of stolen documents mailed from RESIST, Cambridge, Mass., to [redacted] Boston, Mass., and of copies of stolen and one original document mailed from RESIST, Cambridge, Mass., to [redacted] Boston, Mass., disclosed that typewriter used to prepare address on three of the envelopes addressed to [redacted] determined to be similar to IBM Selectric script style type used on previously submitted documents. Typewriter impressions on fourth envelope addressed to [redacted] determined to be Ransmayer style type, also used on previously submitted specimens.

Latent Fingerprint Section report discloses that two latent fingerprints and one latent palm print developed on envelope addressed to [redacted] and seven latent fingerprints developed on documents mailed to [redacted]. Two of the latent fingerprints identified as fingerprint of [redacted] FBI No. [redacted]

The Laboratory concluded that typewriter used to

prepare letter accompanying documents mailed to [redacted]  
not used to prepare release of "Citizens' Commission to  
Investigate the FBI."

One latent fingerprint and one latent palm print  
developed on envelope addressed to [redacted] and one  
latent fingerprint on letter accompanying documents sent to  
[redacted] These prints not identical to available palm  
prints and fingerprints of suspects.

Latent fingerprint reported in instant case not  
identical to prints of [redacted]  
[redacted]

Handwriting and hand printing of various suspects  
compared with questioned hand printing, but no identification  
effected. Laboratory concluded that questioned hand printing  
in this case not prepared by [redacted]  
[redacted]

Specimens obtained from various typewriters, but  
none of these identified as having been prepared by typewriter  
used to prepare questioned specimens.

Comparison of documents submitted to the Laboratory  
in various break-in cases compared with questioned documents  
in this case, but no identification effected.

Examination by Cryptanalysis Section of various  
submitted specimens and with specimens in other break-in cases  
conducted. Language characteristics of these specimens not  
found to be significantly similar to language characteristics  
contained in release issued by "Citizens' Commission to Investi-  
gate the FBI."

1. Surfaced Document Examination

Concerning the items mailed from Detroit, Mich., to [redacted] Philadelphia, Pa., as previously reported, Latent Fingerprint Section report dated May 26, 1971, Latent Case #A33896, discloses that no latent prints of value were developed on the envelope and nine photocopies, Q371 through Q376, mailed to [redacted]

Results of Laboratory examination of the above specimens is set forth below:

- "Q371 Manila envelope bearing the handprinted address [redacted] Philadelphia, Pa.'
- "Q372 Copy of 'Files Seized by Citizens Commission Exposes [redacted]
- "Q373 Copy of press release of The Citizens Commission to Investigate the FBI.
- "Q374 Copy of Memorandum of SA THOMAS F. LEWIS dated 5/27/71.
- "Q375 Copy of letter page 15 on 'Potential For Racial Violence'.
- "Q376 Copies of five pages numbered 59 through 63 on 'Possible Racial Violence'.

Results: "The envelope, Q371, contains a Pitney Bowes Post Office Meter #121057 stamp.

"Due to unexplained handprinting variations, it could not definitely be determined whether the handprinting on Q371 was or was not prepared by [redacted] K24, in the EASTCON case. The handprinting on Q371 was not identified with the writers of the questioned handprinting and the remaining known handprinting previously submitted in the MEDBURG, EASTCON and GARDBURG-ATTEMPT cases."

PH 52-7165

b6  
b7c

"The impressions on the copy, Q372, are printers type setup. The typewriter impressions at the top of Q373 are IBM Selectric script style of type. This same style of type was used to prepare Q168, Q169 and other copies previously submitted in this case. However, due to the lack of sufficient identifying characteristics, it was not possible to determine whether one typewriter was used in the preparation of these specimens.

"The submitted copies appear to have been reproduced on an SCM copier. No watermarks or indented writing of value were noted on the submitted evidence."

Latent Fingerprint Section report dated May 7, 1971, Latent Case #A-33896, relating to specimens Q168 through Q184, surfaced documents mailed from Wilmington, Del. on April 22, 1971, to [REDACTED]

[REDACTED] as previously reported, discloses the following:

"Twenty-one latent fingerprints developed on specimens, designated Q169, Q171 through Q176, Q178, Q179, Q180, Q182, and Q183. No latent prints of value developed on remaining specimens.

"Latent fingerprints not identical fingerprints of suspects named to date.

"Searches were conducted in Weatherman section of single fingerprint file, but no identification was effected."

On May 6, 1971, the Boston Office submitted to the Laboratory five packets of xerox copies of copies of documents taken from the Media Resident Agency. These five packets, Q273 through Q277, mailed from Resist. 763 Massachusetts Avenue, Cambridge, Mass., to [REDACTED] a

[redacted] were obtained by SA FRANCIS T. LEONARD from [redacted] of the law firm of [redacted] Boston, which firm represents [redacted]

On May 7, 1971, [redacted] of the above law firm turned over to SA JAMES E. LINDSAY an envelope, Q300, along with specimens Q301 through Q304, all of which are fully described in Laboratory report dated May 17, 1971.

The Boston Office, also on May 6, 1971, submitted to the Laboratory four envelopes (Q269 through Q272) addressed to [redacted] Boston, Mass. These items were obtained by SA [redacted] on May 5, 1971, from [redacted] an attorney for [redacted]

[redacted] on May 6, 1971, advised SA FRANCIS T. LEONARD concerning an article by [redacted] which appeared in [redacted] on April 27, 1971, which article was based on an original document taken in instant theft; that he assumed that the original document was received in one of these envelopes postmarked April 22, 1971, at Wilmington, Del. (Q271). He said he based this assumption on a statement of [redacted] to him that he received this original document on April 26, 1971, and wrote the article on April 27, 1971.

Laboratory and Latent Fingerprint Section reports as to examination of the above items are set forth below.

BACKGROUND AND PHYSICAL DESCRIPTION OF  
JOHN PETER GRADY

Physical Description

Date of Birth	August 15, 1925
Place of Birth	Bronx, New York
Race	White
Ethnic Background	Both parents born in Ireland
Height	5'8" tall
Weight	185 pounds
Build	Heavy, large stomach
Complexion	Ruddy
Eyes	Brown
Hair	Dark brown or black, wavy, flecked of grey, long side- burns
Physical Condition	Draws veteran's disability of \$227 annually for sinus condition and left shoulder injury. Is alleged to be heavy drinker (as much as 1/5 daily). Allegedly played football and baseball in high school and college.
Personality Characteristics	Speaks with Irish accent, smiles easily, is "tail" conscious.

General Background

b6  
b7C

Relatives

Mother: ANNA GRADY, Queens, N.Y.  
Father: Deceased

Education

Attended elementary and graduated from high school in Bronx, N.Y. Studied Civil Engineering one year at Manhattan College, New York City. Entered Navy and on discharge, returned to Manhattan and graduated in 1949 with B.A. Degree in Sociology.

Military Service

U.S. Navy from 11/4/43 to 5/29/46. Honorable discharge as Aviation Electronics Mate, (NSN 8162313). No overseas duty.

Registered for Selective Service at Bronx, N.Y., in 1948 (SSN 50-20-25-547).

Veteran's Administration No. 6 11 4 19504

Occupation

Present:  
Resistance Book Distributors  
611 East 219th Street  
New York City, N.Y.

Presently setting up "radical" book stores near various colleges..

1965 - Present:  
Cornelius J. Drew Foundation  
211 - 1/2 West 141st Street  
New York City, N.Y.

GRADY is allegedly Executive Director and has control of funds. DREW is former Catholic Priest.

Financial matters

Social Security No. - 109-18-7270  
Gulf Credit Card No. - 442-170-748-2  
Bank Americard No. - 250630004639

Credit Bureau of Greater New York gave "Satisfactory" rating as of April, 1971.

American Oil Company Credit Card cancelled in 1970 as "bad account."

Residence

855 East 233rd Street  
Apartment 10 B  
Bronx, N.Y.

[REDACTED] GRADY appears to be absent and travelling almost constantly.

Arrests

None known

Automobiles:

1965 red Chevrolet Station Wagon, VIN 133355BI44216, which as of 2/7/70, bore New Jersey License Plate POM-808, registered to GRADY at 18 Massa Lane, Edgewater, N.J. This vehicle believed to be presently at an unknown location in Philadelphia and GRADY is attempting to re-register it in Philadelphia.

[REDACTED] drives a 1961 white Mercury Comet bearing New Jersey License Plate [REDACTED] insured in her name.

GRADY has been known to rent cars at various times.

As of 6/3/71, he was known to be using a four-door 1968 Chevrolet Impala, leamon-cream or gold in color, bearing New Jersey license/[REDACTED] registered to [REDACTED]  
[REDACTED]

Driver's License

New Jersey State, G714240777-08250, (Driving privileges suspended as of 10/22/69.)

New York State 7075569. (Expiration date, November 1970.)

Concerning surfaced documents mailed to [redacted]  
[redacted] Philadelphia, Pa., in an  
envelope postmarked May 13, 1971, at Detroit, Mich., and  
stamped with a Pitney Bowes Post Office Meter, stamp #121057,  
as previously reported. the Detroit Office on May 19, 1971,  
advised that [redacted] U. S. Post Office,  
North End Branch, 60 East Milwaukee Street, Detroit, Mich.,  
on May 18, 1971, stated that Pitney Bowes Postal Meter #121057  
had been in continuous use at that station as a counter machine  
since shortly after July 29, 1969. [redacted] said tapes from  
this machine are applied to mail coming to the Post Office  
over the counter. U. S. Postal Clerks [redacted]  
[redacted] who were operating this machine on May  
13, 1971, were not able to furnish any information regarding  
the person mailing the envelope addressed to [redacted] on  
May 13, 1971.

B. FBI Laboratory and Latent Fingerprint  
Section - Examination of Evidence

The following is a summary of pertinent results of FBI Laboratory and Latent Fingerprint Section examinations as set out in this report:

No latent prints of value developed on envelope or copies of documents mailed to [redacted] Philadelphia, Pa., from Detroit, Mich., on May 13, 1971. Hand printing on the envelope sent to [redacted] not identified with questioned hand printing in this case or with known hand printing of suspects.

Twenty-one latent fingerprints developed on specimens of surfaced documents mailed from Wilmington, Del., on April 22, 1971, to [redacted] Washington, D. C. None of these latents identified with fingerprints of suspects.

Examination of envelopes and copies of stolen documents mailed from RESIST, Cambridge, Mass., to [redacted] Boston, Mass., and of copies of stolen and one original document mailed from RESIST, Cambridge, Mass., to [redacted] Boston, Mass., disclosed that typewriter used to prepare address on three of the envelopes addressed to [redacted] determined to be similar to IBM Selectric script style type used on previously submitted documents. Typewriter impressions on fourth envelope addressed to [redacted] determined to be Ransmayer style type, also used on previously submitted specimens.

Latent Fingerprint Section report discloses that two latent fingerprints and one latent palm print developed on envelope addressed to [redacted] and seven latent fingerprints developed on documents mailed to [redacted]. Two of the latent fingerprints identified as fingerprint of [redacted] FBI No. [redacted]

The Laboratory concluded that typewriter used to

PH 52-7165

prepare letter accompanying documents mailed to [redacted]  
not used to prepare release of "Citizens' Commission to  
Investigate the FBI."

One latent fingerprint and one latent palm print  
developed on envelope addressed to [redacted] and one  
latent fingerprint on letter accompanying documents sent to  
[redacted] These prints not identical to available palm  
prints and fingerprints of suspects.

Latent fingerprint reported in instant case not  
identical to prints of [redacted]  
[redacted]

Handwriting and hand printing of various suspects  
compared with questioned hand printing, but no identification  
effected. Laboratory concluded that questioned hand printing  
in this case not prepared by [redacted]  
[redacted]  
[redacted] (U)

Specimens obtained from various typewriters, but  
none of these identified as having been prepared by typewriter  
used to prepare questioned specimens.

Comparison of documents submitted to the Laboratory  
in various break-in cases compared with questioned documents  
in this case, but no identification effected.

Examination by Cryptanalysis Section of various  
submitted specimens and with specimens in other break-in cases  
conducted. Language characteristics of these specimens not  
found to be significantly similar to language characteristics  
contained in release issued by "Citizens' Commission to Investi-  
gate the FBI."

1. Surfaced Document Examination

Concerning the items mailed from Detroit, Mich., to [redacted] Philadelphia, Pa., as previously reported, Latent Fingerprint Section report dated May 26, 1971, Latent Case #A33896, discloses that no latent prints of value were developed on the envelope and nine photocopies, Q371 through Q376, mailed to [redacted]

Results of Laboratory examination of the above specimens is set forth below:

- "Q371 Manila envelope bearing the handprinted address [redacted] Philadelphia, Pa.'
- "Q372 Copy of 'Files Seized by Citizens Commission Exposes [redacted]
- "Q373 Copy of press release of The Citizens Commission to Investigate the FBI.
- "Q374 Copy of Memorandum of SA THOMAS F. LEWIS dated 5/27/71.
- "Q375 Copy of letter page 15 on 'Potential For Racial Violence'.
- "Q376 Copies of five pages numbered 59 through 63 on 'Possible Racial Violence'.

Results: "The envelope, Q371, contains a Pitney Bowes Post Office Meter #121057 stamp.

"Due to unexplained handprinting variations, it could not definitely be determined whether the handprinting on Q371 was or was not prepared by [redacted] K24, in the EASTCON case. The handprinting on Q371 was not identified with the writers of the questioned handprinting and the remaining known handprinting previously submitted in the MEDBURG, EASTCON and GARDBURG-ATTEMPT cases.

"The impressions on the copy, Q372, are printers type setup. The typewriter impressions at the top of Q373 are IBM Selectric script style of type. This same style of type was used to prepare Q168, Q169 and other copies previously submitted in this case. However, due to the lack of sufficient identifying characteristics, it was not possible to determine whether one typewriter was used in the preparation of these specimens.

"The submitted copies appear to have been reproduced on an SCM copier. No watermarks or indented writing of value were noted on the submitted evidence."

Latent Fingerprint Section report dated May 7, 1971, Latent Case #A-33896, relating to specimens Q168 through Q184, surfaced documents mailed from Wilmington, Del.. on April 22, 1971, to [REDACTED]

[REDACTED] as previously reported, discloses the following:

"Twenty-one latent fingerprints developed on specimens, designated Q169, Q171 through Q176, Q178, Q179, Q180, Q182, and Q183. No latent prints of value developed on remaining specimens.

"Latent fingerprints not identical fingerprints of suspects named to date.

"Searches were conducted in Weatherman section of single fingerprint file, but no identification was effected."

On May 6, 1971, the Boston Office submitted to the Laboratory five packets of xerox copies of copies of documents taken from the Media Resident Agency. These five packets, Q273 through Q277, mailed from Resist, 763 Massachusetts Avenue, Cambridge, Mass., to [REDACTED] a

[redacted] were obtained by SA FRANCIS T. LEONARD from [redacted] of the law firm of [redacted] Boston, which firm represents [redacted]

On May 7, 1971, [redacted] of the above law firm turned over to SA JAMES E. LINDSAY an envelope, Q300, along with specimens Q301 through Q304, all of which are fully described in Laboratory report dated May 17, 1971.

The Boston Office, also on May 6, 1971, submitted to the Laboratory four envelopes (Q269 through Q272) addressed to [redacted] Boston, Mass. These items were obtained by SA [redacted] on May 5, 1971, from [redacted] an attorney for [redacted]

[redacted] on May 6, 1971, advised SA FRANCIS T. LEONARD concerning an article by [redacted] which appeared in [redacted] on April 27, 1971, which article was based on an original document taken in instant theft; that he assumed that the original document was received in one of these envelopes postmarked April 22, 1971, at Wilmington, Del. (Q271). He said he based this assumption on a statement of [redacted] to him that he received this original document on April 26, 1971, and wrote the article on April 27, 1971.

Laboratory and Latent Fingerprint Section reports as to examination of the above items are set forth below.

COVER PAGE

ADMINISTRATIVE DATA

The code word "Medburg" has been assigned to this case and will continue to be used in communications as before for facility in transmission. U

Since this is a continuing investigation, the investigative period of this report overlaps the investigative period of referenced report. U

As the Bureau is aware, separate files were opened on all individuals considered to be Medburg suspects. In each individual suspect investigation efforts were made to obtain photographs, handwriting and hand printing samples. Police Department records and records of the Identification Division, FBI were checked for availability of fingerprints. Investigation included efforts to determine the suspect's whereabouts during the period 3/8-9/71 and his possible involvement in the planning and/or execution of the FBI Media RA Burglary or in the distribution of surfaced stolen documents. U

Complete details concerning each suspect is contained in the individual suspect file. A brief summary of those activities which made him suspect, together with a physical description of those individuals no longer considered suspects as of 6/11/71, is included in details of this report. U

Information contained in instant report, which is of interest to other offices, is already in their possession because they are Office of Origin or the information has been furnished to them separately by Philadelphia, by other Divisions, and/or by the Laboratory. U

In view of above, copies of instant report have been designated only for the Bureau and Philadelphia. U

ROBERT LAWRENCE ANTHONY

ANTHONY was considered a suspect in the FBI Media Resident Agency burglary for the following reason: u

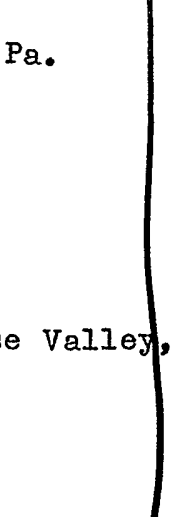

In February 1970, ANTHONY was reported to have been in the office of Local Board #60, Media, Pa., taking notes and appeared to be making a floor plan of the local board. The FBI Media Resident Agency was located adjacent to the offices of Local Board #60. ANTHONY is known to have been involved in anti-draft, anti-Vietnam activities. u

Investigation has produced no evidence to indicate ANTHONY was involved in the planning and/or execution of the FBI Media Resident Agency burglary or in the distribution of surfaced stolen documents. u

MARY ASSUMPTA MOYLAN

MARY ASSUMPTA MOYLAN was considered a suspect in the FBI Media Resident Agency burglary for the following reasons: u

On May 17, 1968, MARY ASSUMPTA MOYLAN and eight other individuals entered Local Board # 33, Selective Service System, Catonsville, Md., and by force removed the contents of several file drawers of Selective Service records to a parking lot adjacent to the Local Board where they set them on fire using a home-made solution of napalm. This group has been referred to by the News Media as the "Catonsville 9". She was arrested with her cohorts on May 17, 1968 by Bureau Agents. On May 22, 1968 Federal Grand Jury at Baltimore, Md., returned a true bill against all nine defendants. u

On November 8, 1968, MOYLAN and her eight cohorts were sentenced in U.S. District Court, Baltimore, Md. MOYLAN was sentenced to serve two years. Appeals resulted and convictions were upheld and MOYLAN was to report April 9, 1970 to commence serving her federal sentence. She failed to appear and a bench warrant was issued by U.S. District Court Judge, Baltimore, Md. MOYLAN has not been apprehended. u

There is no evidence to indicate MARY ASSUMPTA MOYLAN was involved in the planning and/or execution of the FBI Media Resident Agency burglary or in the distribution of surfaced stolen documents. u

JOAN HAWORTH NICHOLSON, aka  
Joan Howorth Nicholson,  
"Joanie"

NICHOLSON was considered a suspect in the FBI Media Resident Agency burglary because of her public admission to being a member of the "New York 8," which group claimed responsibility for destruction of draft board records at Bronx, N. Y., and Jamaica Queens, N. Y., in August, 1969. NICHOLSON was also a member of the "Flower City Conspiracy," a group which ransacked the offices of the FBI, the Selective Service, and U. S. Attorney, Rochester, N. Y., on September 6, 1970. u

NICHOLSON is currently incarcerated at Federal Women's Reformatory, Alderson, West Virginia. u

Investigation has produced no evidence to indicate NICHOLSON was involved in the planning and/or execution of the FBI Media Resident Agency burglary or in the distribution of surfaced stolen documents. u

BASIL KENELM O'LEARY

O'LEARY was considered a suspect in the FBI Media Resident Agency burglary for the following reason: u

O'LEARY was one of the 14 individuals called the "Milwaukee 14" who broke into Local Selective Service Board in Milwaukee, Wisc., on September 24, 1968, and removed 1-A draft files to a vacant lot across the street from the draft board and then set the files afire. These fourteen individuals were arrested by the Milwaukee Police Department and charged with burglary, theft, and arson and later indicted by a Federal Grand Jury and charged with conspiracy and destruction of property. u

Investigation has produced no evidence to indicate O'LEARY was involved in the planning and/or execution of the FBI Media Resident Agency burglary or the distribution of surfaced stolen documents. u
